

Sizing Guide

At VAST, we design with ease, movement and longevity in mind. Our pieces are intentionally relaxed, allowing garments to adapt to different bodies rather than the other way around. We create clothing that lives with you softening over time and feeling like a second skin.

Rather than rigid sizing, we embrace fluidity. Our silhouettes are relaxed, our materials evolve and each garment finds its own way of fitting you.

How our pieces fits

- One size pieces | Designed to fit XS–XL with relaxed silhouettes.
- Jackets structured | Yet fluid, true to size with a relaxed attitude. Size down for a closer feel, or up for layering.
- Trousers & Shorts | Flexible fits, often adjustable at the waist.
- Skirts | Typically S/M and L/XL with adaptable waist and styling.

Material Notes

Goat suede | Soft, breathable and adapts to your body over time (trousers will stretch)

VAST signature textile | Handloom cotton, structured initially, softens beautifully with wear.

West African Textiles | One of a kind, minimal stretch. Variation is part of the story.
